## Goals and accomplishments for this Project

Choose at least five goals for your project. Goals should be established at the beginning of the project. They should be challenging, yet attainable. Goals should include measurements of performance (see Goals below). They should be stated in terms of definite outcomes. At the close of the project, the accomplishments should be compared with goals. Check off what you plan to do or write your own goals in the space provided. Then have your advisor initial and date the goals you complete.

I plan to do	Goal	Date Achieved	Advisor's Initials	Advisor's Comments

	Take responsibility for the training and showing of my horse(s)

Projected Cost of Keeping Your Horse(s) for One Year-Making a Budget

Do this projected budget at the start of the project year. Not every row will be filled in for every person/project. For Example, if you are leasing a stall, you would not list a utility charge. Also, some of these items may be free or donated.
